

RS Phase One Curriculum 2023-24

Curriculum Intent

The main objective of Religious Studies at Trinity St. Edward's is to provide students with core knowledge and understanding of the beliefs and practises of the religions and worldviews, which not only shape their history and culture, but which guide their own development. We aim to encourage enthusiasm for interest in the study of other people's beliefs and promote mutual **respect**, tolerance and understanding across different cultures and communities. Young people will learn about religion by **provoking challenging questions** about meaning and purpose in life, beliefs about God, ultimate reality, issues of right and wrong and what it means to be human. Fundamental to pupils understanding of religion is the development of their religious literacy – they will learn to understand, interpret and **evaluate** texts, sources of wisdom and authority and other evidence. Young people will also learn to articulate clearly and coherently their personal beliefs, ideas, values and experiences while respecting the right of others to differ.

Overview

Students develop both a philosophical and theological understanding during phase 1. They consider ultimate questions and explore the links and connections between them and a number of major world religions. The RS curriculum focuses on the core values of the academy and creating community cohesion.

Year 7

| Term 1 | Term 2 | Term 3 | Term 4 | Term 5 | Term 6 |
|---|---|---|---|--|--|
| Introduction to Abrahamic faiths (part one) | Introduction to Abrahamic faiths (part two) | How do Muslims practice their faith? (part one) | How do Muslims practice their faith? (part two) | What does it mean to forgive? (Part one) | What does it mean to forgive? (Part two) |
| <p>This unit will provide a foundation knowledge of all three Abrahamic faiths: Christianity, Judaism, and Islam. This will be essential knowledge for students throughout the whole of the RE curriculum and will also allow all students to have the same base knowledge of the Abrahamic faiths. Students will explore creationism, Noah, Abraham and religious scripture throughout The Torah.</p> <p>Students will then move on to study important figures such as Jesus and Muhammed and will</p> | | <p>Within this unit students will focus on building their knowledge of Islam focusing on religious practices (5 pillars), this will follow on from their introductory unit on Abrahamic faiths where students will have secured their basic knowledge of Islamic beliefs.</p> <p>Students will explore Sunni vs Shi'a beliefs, the Shahadah, Salah and differences in prayer.</p> <p>This unit will allow students the opportunity to apply Islamic beliefs to practices and develop an</p> | | <p>Students will study this from a Christian perspective, looking at different religious teachings and stories and how they may be interrupted differently within the diverse faith of Christianity.</p> <p>Students will explore the concept of forgiveness through examining the importance of both mercy and retribution within the Bible, studying both scripture and religious texts.</p> | |
